Dear Interested Party,

I am pleased to provide you with and invite your comments on the environmental assessment for the Yellow Creek Watershed Restoration Project. The Almanor Ranger District of the Lassen National Forest has prepared this environmental assessment to present environmental consequences of the Proposed Action and No Action alternatives. This letter begins a 30-day comment period which is intended to provide those interested or affected by this project an opportunity to share concerns prior to a decision by the Responsible Official. An electronic version of the EA document and maps can be found at the Lassen National Forest website: <https://www.fs.usda.gov/project/?project=57968>

The Yellow Creek Project is located on the Lassen National Forest on the Almanor Ranger District. The project encompasses approximately four miles of Yellow Creek within the Upper Feather River Watershed in Plumas County, CA and falls within Township 27 North, Range 6 East, Sections 27, 34, and 35 Mount Diablo Base Meridian (MDBM). The largest meadow complex within the Yellow Creek sub-watershed is Humbug Valley, which is owned by both private and federal stakeholders. This project encompasses 450 acres of federal land and includes six meadow segments, all of which drain into Humbug Valley. Humbug Valley is the ancestral land of the Mountain Maidu who refer to the valley as Tásmam Koyóm.

Treatments are proposed on approximately 324 acres of National Forest System (NFS) lands. Proposed treatment activities include both vegetation treatments such as; thinning, pile burning and hydrologic treatments as well as road maintenance and decommissioning of unauthorized non-system roads.

### **How to Comment and Timeframe**

Written, facsimile, hand-delivered and electronic comments concerning this action will be accepted for 30 calendar days following publication of opportunity to comment notice in the *Chester Progressive*, the newspaper of record. The publication date in the newspaper of record is the exclusive means for calculating the comment period for this proposal. Those wishing to comment should not rely upon dates or timeframe information provided by any other source (36 CFR 218.25(a)(1)(iv)). Individuals and organizations wishing to be eligible to object must meet the information requirements of 36 CFR 218.25(a), including specific written comments as defined in 218.2 regarding the proposed project, along with supporting reasons (218.25(a)(30)(iii)). The commenter is responsible to provide the literature cited in their comment, as well as the full citation and explanation of how each piece of literature cited applies to the environmental analysis. Each individual or representative from each entity submitting timely and specific written comments regarding this project must either sign the comments or verify upon request (218.24(b)(8)). All written comments received by the responsible official become a

matter of public record (218.35(b)(2)). A decision regarding this proposal is expected in **May of 2021**. Thank you for your interest and participation in the environmental analysis process.

Hardcopy comments may be submitted via mail to:

Coye Burnett, Wildlife Biologist  
Lassen National Forest Almanor Ranger District  
P.O. Box 767  
Chester, CA 96020

Electronic comments may be submitted through the project specific electronic comment form at: [comments-pacificsouthwest-lassen-almanor@fs.fed.us](https://comments-pacificsouthwest-lassen-almanor@fs.fed.us) with the subject line of Yellow Creek Project. Electronic comments must be submitted in a format such as plain text (.txt), rich text format (.rtf), portable document format (pdf), or MS Word (.doc or .docx).

For more information on the project, please contact Coye Burnett, Wildlife Biologist, by email: [coy.burnett@usda.gov](mailto:coy.burnett@usda.gov)

I appreciate your interest in public lands.

Sincerely,

DEB BUMPUS  
Forest Supervisor
